WINEMAKER'S CHOICE

SAUVIGNON BLANC 2017

Winemaker's Choice celebrates Australia's best winemakers, who have made the wine industry what it is today, allowing them to share their favourite wine styles with the rest of the country.

VINTAGE CONDITIONS

The 2017 vintage in the Adelaide Hills, South Australia was very mild with warm days and noticeably cool nights, combined with good winter and spring rain. The combination of these conditions allowed this vintage to develop into one of the greatest vintages of the past decade, producing wines with intense fruit depth and beautiful natural acidity.

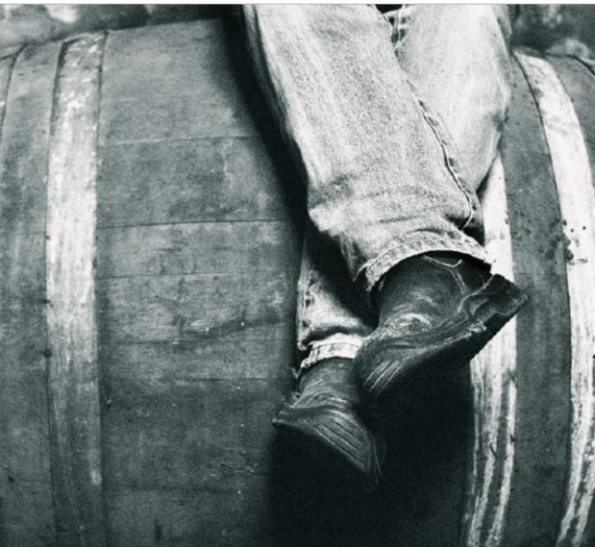

WINEMAKING

The fruit for this wine was sourced from multiple vineyards through the Adelaide Hills, South Australia. After being harvested in the cool of the night, the parcels were pressed immediately clarified. A variety of yeasts are added to the wine parcels to enhance the diverse flavour profiles. Once fermentation was complete, the parcels were clarified and blended to create a wine with great depth and intensity of flavour.

TASTING NOTES

The Winemaker's Choice Sauvignon Blanc highlights delicate aromas of passionfruit and gooseberry with hints of grapefruit characters. The palate displays refreshing and crisp flavours of passionfruit followed by a long-lasting citrus finish. This wine is designed to be enjoyed in it's youth.

Serve with the accompaniment of fresh seafood, a range of Thai dishes or a summer salad.
